PROFILE SUMMARY

Final-year Computer Science student with a strong foundation in Java and web development. Skilled in building basic web applications using Servlets and JSP, as well as working with databases using SQL. Eager to apply problem-solving and programming skills in an entry-level software development role.

EDUCATION

DIPLOMA IN COMPUTER
SCIENCE(FINAL YEAR)

2023-current

- Tshwane University of Technology-
expected 2026

NATION SENIOR CERTIFICATE
(MATRIC)
2022

- Langenhoven High School
- Achieved 2 distinctions in
mathematical literacy and tourism

TECHINACAL SKILLS

- Java(OOP, file handling, Internet
programming)
- HTML,CSS,basic JavaScript
- SQL (CRUD operations, joins, basic
database design)

SKILLS

- Problem-solving
- Teamwork and collaboration(Group
projects)
- Time management

ACADEMIC PROJECTS/ COURSEWORK

Java Management Application

- Developed a Java-based expense management application with
file handling for persistent data storage and monthly summary
reporting
- Implemented file handling for data storage and retrieval
- Designed user input system and monthly summary functionality

Web Application using Servlets and JSP

- Built a dynamic web application using Java Servlets and JSP
- Implemented form handling and server-side processing
- Connected application to a database using JDBC

Database Design Project

- Designed relational database schema
- Wrote SQL queries including joins and data manipulation
- Ensured proper normalization and data integrity
